General comments:

It was a chilly morning in bright sunshine on Mothers Day morning. Charles and I were joined by Esther Townsend and Anne Ellerman for the survey. It was good to have Anne with us as she is a regular volunteer at Wahminda and was able to show us some locations where she has had good sightings. As usual the adjacent Maureen Lawrence Park was included. The chill in the air seemed to keep the smaller birds in their 'beds'. We did have a very special sighting of a female Rose Robin which was our first in that location.
